

Qualitative Analysis of Acids and Bases

MODEL - AK QAAB

MAKE - AK LABS

The Qualitative Analysis of Acids and Bases Kit is an educational chemistry kit designed to identify acids and bases using indicators and simple laboratory tests. It helps students understand acid-base properties through practical experiments and hands-on learning.

KIT SPECIFICATION

Experiment	Qualitative Analysis of Acids and Bases
Subject	Chemistry & Analytical Chemistry
Learning Areas	Acid-Base Identification, Indicators, pH Analysis & Qualitative Testing
Components	Test Tubes, Droppers, Universal Indicator, Litmus Paper, Sample Solutions, Laboratory Accessories
Material	Laboratory Grade Glassware & Durable Educational Components
Application	Chemistry Practicals, Qualitative Analysis Experiments & STEM Learning
Suitable For	Schools, Colleges, Chemistry Laboratories & Educational Institutions

KIT DETAILS

The **Qualitative Analysis of Acids and Bases Kit** enables students to identify and differentiate acids and bases using indicators, pH tests, and characteristic chemical reactions. It strengthens concepts of acid-base chemistry, qualitative analysis, and

laboratory techniques through practical experiments. Ideal for schools, colleges, chemistry laboratories, and STEM-based science education.
