

Study of Plant Cell and Animal Cell

MODEL - AKBIO01

MAKE - AK LABS

The Study of Plant Cell and Animal Cell Kit is an educational biology kit designed to compare plant and animal cells through microscopic observation. It helps students identify cell structures, understand cellular organization, and develop practical laboratory skills.

KIT SPECIFICATION

Product Code	AK-BIO-001
Product Name	Study of Plant Cell and Animal Cell Lab Kit
Subject	Biology
Suitable For	Class 9-12
Practical	Study of Plant Cell and Animal Cell
Application	Schools, Colleges & Biology Laboratories
Skills Developed	Microscopy, Slide Preparation & Cell Identification
Packaging	Durable Storage Box with Essential Laboratory Accessories

KIT DETAILS

The **Study of Plant Cell and Animal Cell Kit** enables students to observe and compare plant and animal cells using prepared slides and laboratory equipment. It strengthens understanding of cell structure, organelles, and differences between plant and animal cells while developing microscopy skills through hands-on practical experiments. Ideal for schools, colleges, biology laboratories, and STEM-based science education.
