

Temporary Mount of Onion Peel and Human Cheek Cells

MODEL - AKBIO02

MAKE - AK LABS

The Temporary Mount of Onion Peel and Human Cheek Cells Kit is an educational biology kit designed to teach slide preparation and microscopic observation. It helps students prepare temporary mounts and study plant and animal cells through hands-on laboratory experiments.

KIT SPECIFICATION

Product Code	AK-BIO-002
Product Name	Temporary Mount of Onion Peel and Human Cheek Cells Lab Kit
Subject	Biology
Suitable For	Class 9-12
Practical	Preparation and Observation of Temporary Mounts
Application	Schools, Colleges & Biology Laboratories
Skills Developed	Slide Preparation, Staining, Microscopy & Cell Identification
Packaging	Durable Storage Box with Essential Laboratory Accessories

KIT DETAILS

The **Temporary Mount of Onion Peel and Human Cheek Cells Kit** enables students to prepare temporary slides of onion peel and human cheek cells using standard laboratory

materials. It develops microscopy skills while strengthening concepts of cell structure, staining techniques, and specimen preparation through practical biology experiments. Ideal for schools, colleges, biology laboratories, and STEM-based science education.
