

Test Tube Stand (6 Hole) Steam Beech Wooden

MODEL - CH-124

MAKE - AK LABS

The AK LABS 6-Hole Wooden Test Tube Stand is manufactured from premium steam beech wood to securely hold test tubes during laboratory experiments. Its sturdy construction, smooth finish, and stable design make it ideal for chemistry, biology, and educational laboratory applications.

PRODUCT SPECIFICATION

Product Type	Wooden Test Tube Stand
Capacity	6 Test Tubes
Material	High-Quality Steam Beech Wood
Finish	Smooth polished surface
Construction	Durable, stable, and lightweight design
Applications	Holding test tubes during laboratory experiments and analysis
Suitable For	Schools, Colleges, Universities, Research & Science Laboratories

PRODUCT DETAILS

The AK LABS Wooden Test Tube Stand is crafted from high-quality steam beech wood for long-lasting durability and excellent stability. Featuring six precision-machined holes with matching support pegs, it keeps test tubes upright during experiments, storage, and demonstrations. The polished finish, strong construction, and laboratory-grade quality make it suitable for schools, colleges, universities, and research laboratories.

Key Features

- Premium steam beech wood construction
- Holds up to six test tubes securely
- Smooth polished surface with rounded edges
- Strong, stable, and durable design
- Precision-drilled holes for accurate fitting
- Easy to clean and maintain

Applications

- Holding test tubes during experiments
- Chemistry laboratory practicals
- Biology laboratory experiments
- Sample preparation and storage
- Educational science demonstrations
- Laboratory organization
- Research laboratory applications
