

Hot Plate 8" Round (Electric) with Energy Regulator

MODEL - BT-019

MAKE - AK LABS

Electric Hot Plate with 8-inch round heating surface is designed for uniform and controlled heating of laboratory samples. Equipped with an energy regulator, it delivers precise temperature control for chemical, biological, pharmaceutical, and educational laboratory applications.

PRODUCT SPECIFICATION

Product Type	Electric Hot Plate with Energy Regulator
Heating Plate	8-inch Round Cast Iron Plate
Temperature Control	Adjustable Energy Regulator
Body Material	Powder-Coated Heavy-Duty Metal Body
Indicators	Power & Heating Indicator Lamps
Heating Performance	Fast and Uniform Heat Distribution
Suitable For	Schools, Colleges, Universities, Research, Chemical & Industrial Laboratories

PRODUCT DETAILS

Featuring an 8-inch cast iron heating plate, adjustable energy regulator, heavy-duty metal body, and indicator lamps, this electric hot plate provides fast, uniform heating with reliable performance. It is ideal for schools, colleges, research laboratories, and industrial quality control testing.
